

MISSION POSSIBLE

The **Mission of Scouting** is realized daily by youth members throughout Bay-Lakes Council. These young men and women have pledged to do their best and to help others at all times.

Scouting instills values and encourages young people to make ethical choices. Scouts build stronger communities by participating in service projects. Activities completed in the advancement program teach responsibility, leadership, job skills, compassion, empathy, and problem solving. These experiences are our mechanism for accomplishing the seemingly impossible — providing youth with the best set of tools to help them navigate a path towards a promising and successful future.

Scouts lead the way every day. With your support, the support of other Scouting families, and the community, we are able to provide the opportunities for character development, citizenship training, outdoor adventure, and spiritual, mental, and physical growth. Most importantly, we will ensure that no youth is denied the opportunity to become a Scout due to financial reasons.

Thank you for considering a gift to the 2021 Friends of Scouting campaign. Please know whatever level of support, your investment will benefit youth in your own Pack, Troop, or Crew, and throughout the Bay-Lakes Council.

Together, we will make the **Scouting Mission Possible**.

EAGLE SCOUT

"Scouts all across the world go on adventures every day where they grow their skills, build bonds that will last a lifetime, and experience the wonders of the outdoors. I wanted to be a part of that so when I heard that I could join the BSA, I was so excited!"

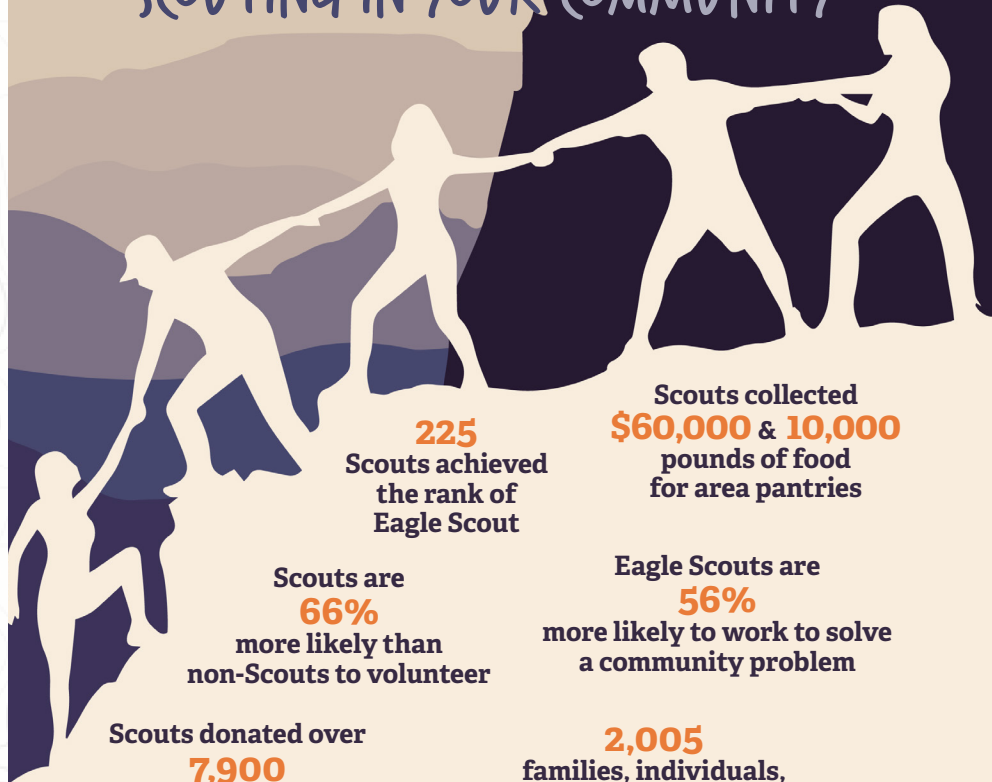

ANDREW TAYLOR
COMMITTEE CHAIR, PACK 3633
EAGLE SCOUT

"From Tiger Cub to Eagle Scout, Scouting has been a great way for me to experience new and exciting things while learning critical life skills. Now I can share many of those same experiences with my own children while on their journey through the Scouting program."
